Oregon State Consortia

Names and Affiliations of State Consortia Co-Leaders
Name: Traci Price (Co-Lead)
Affiliate: Environmental Literacy Initiative - The Gray Family Foundation (Also, Board Co-Chair EEAO)

Name: Alison Heimowitz (Co-Lead)
Affiliate: Clackamas Community College (Also, EEAO Board Member)

Name: Jim Adriance (Co-Lead)
Affiliate: Latino Partnership Program (The Oregon Community Foundation)

Name: Caitlin Blethen (Co-Lead)
Affiliate: Growing Gardens

Summary of Major Accomplishments
State consortia partners were invited to participate in our EECapacity project because of their commitment to building a sustainable planet through healthcare, education, social services, food & agriculture, and spirituality. Our purpose in coming together was to learn from one another how to be ecologically sustainable and in doing so, weave a network and bring new vitality to all of our unique and shared endeavors.

During our first meeting, partners were invited you to share personal stories about what they do and what inspires them about their work. We heard personal accounts of your connections to nature.

In our second meeting, we explored transformation on a societal scale. Partners appreciated the following from our discussion:

“Being able to listen to others and see how we have a common interest.”

“Opportunity for dialogue on the deeper dimensions of environmental education, in the context of cultural change.”

“Hearing and feeling how stuck we are in our ways of viewing sustainability as primarily a social rather than an ecological issue.”

During our third meeting we explored themes from our past meetings and began framing a common vision. Partners valued:
• Building bridges with other community partners
• Emphasizing leadership development and relationship building
• Creating new and different models to measure societal “success”
• Promoting the practice of EE that is driven by real community issues and needs
• Making programs locally relevant and culturally appropriate
• Integrating the local environment as part of all curriculum, supported through pedagogy, policy, and service

In our partners’ words, everyone has a part to play. Our next steps include:

• The Environmental Education Association of Oregon (EEAO) recently submitted a Metro grant request to fund a two-year Portland-Metro Regional Coordinator in partnership with The Intertwine Alliance and the Greater Portland Regional Center of Expertise (RCE) on Education for Sustainable Development (formally recognized by the United Nations University Institute of Advanced Studies for Sustainability). The purpose of this position will be to lead development and implementation of an inclusive, lasting regional conservation education leadership model that represents a diverse cross-sector of individuals and organizations working together to build a healthy, just, and thriving Portland-Metro region.

• EEAO also partnered with the Center for Diversity and the Environment on recent grant applications to Metro and East Multnomah Soil & Water Conservation District to launch a series of Environment 2042 Environmental Education Leadership Programs and create a cadre of change agents who will build a more diverse, equitable and inclusive culture in the environmental movement while advancing equity and building more diverse
leaders in the environmental education field.

- Our leadership team is interested in keeping our conversation going and is working on coordinating a book/article/discussion club.

Things that might help improve the State Consortia Program:

- Coordinated or universal support for trainings on equity, diversity and inclusion
- Multi-year grants
- More flexibility in allowing the partners who gather to determine the outcomes of the project and/or process

**Outcomes and Outputs**

**Outcomes**

**Short-term:**

- Increased number of non-traditional providers in the environmental education field – *non-traditional providers participated in our State Consortium* (completed)
- Increased cultural competency among EE providers – *we did not end up with enough time during our meetings to comprehensive provide cultural competency training* (in process – to be supported by pending grants mentioned above)
- Increased understanding of EE by non-traditional providers – *partners heard from Akiima Price about EE and the developing Community Guidelines for Excellence* (completed)
- Increased awareness of common goals across program providers – *common vision developed and described above* (completed)
- Increased communication among program providers – *providers spent three meetings together* (completed)
- Increased number of partnerships around innovative practices in EE – *we intended to highlight a number of local innovative examples during our meetings but shifted the agendas to meet the needs of the consortium* (in process and hoping to support through pending grant projects)

**Medium:**

- Increased diversity of students pursuing careers in environmental and/or community work – *EECapacity instigated a group of practitioners who continue to gather to explore internship, mentoring and job training opportunities for youth from communities of color* (in process)
- Increased diversity in EE leadership – *core team members and partners have expressed interested in remaining engaged* (completed/in process)
- Increased number of environmentally aware and responsible citizens – *this was unfortunately not covered during project evaluation, would be difficult to capture* (to be completed, potentially through support for a “Place-based evaluation” of the Portland-Metro region through The Intertwine to determine a baseline and tracking for connectedness to nature for Portland-Metro residents)

**Long-term:**
• Improved environmental quality – *not completed during project* (may be part of the Place-based evaluation described above)
• Development of healthier communities – *not completed during project* (may be part of the Place-based evaluation described above)

**Outputs**
• List of identified needs of non-traditional providers – *will hopefully be explored through our extended evaluation project* (to be completed by June 30, 2014)
• Strategic action plan – *defined our common goals* (completed)
• Community Covenant – *did not end up including as part of our agenda* (output changed)
• Enhanced, accessible on-line Resource Directory – *we did not have time to explore improvements to EEAO’s web-based directory in this project* (to be completed as part of pending grant work)
• Program/Organizational links – continuum – *partners names and contact info were shared with all consortium members* (completed)
• Professional Learning Community – *partners worked together for three meetings and continue to be connected* (completed and in process, to be supported through pending grants and book club)

**Evaluation Results**
Surveys were completed by participants at the first and second meetings. The third meeting focused on developing a common vision and included a compilation of notes (*our evaluator was unfortunately unable to attend the third meeting to conduct a more comprehensive evaluation*).

Results are highlighted on the attached documents.

**Environmental Education and Community Leaders Reached and Demographics**

<table>
<thead>

## Appendices

Please find the following documents attached with this report:

- Invitations
  - March 13th
  - April 24th
  - April 29th with Akiima
  - May 21st
  - June 3rd
  - November 12th
- Final communication – February 2014
- Evaluation
  - April 2014 EECapacity Feedback
  - June 2014 EECapacity Feedback
  - EECapacity Feedback Form
- April 30th agenda
- EECapacity Partners

## A. State Consortia Representatives

- Oregon Zoo/Metro Regional Government
- Center for Diversity and the Environment
- Sauvie Island Center
- East & West Multnomah Soil & Water Conservation Districts
- City of Portland
- Latino Partnership Program
- Portland State University
- Metropolitan Family Service
- Portland-Metro STEM Partnership
- Outdoor School
- 4H Extension
- Portland Public Schools
- Ecumenical Ministries
- Upstream Public Health

- The Intertwine
- Columbia Slough Watershed Council
- Play Again
- Groundworks
- Confluence Environmental Center
- Gray Family Foundation
- Portland Audubon
- Sustainability for All
- Earth Wisdom Alliance
- Friends of Tryon Creek
- Wiconi International
- Earth & Spirit Council
- Columbia Land Trust
- Clackamas Community College
- Growing Gardens

*See attached for a complete list of representatives*
B. EE Capacity Tools and Resources
The following resources were shared through this project:

- Guidelines for Excellence in Environmental Education
- Community Environmental Education Guidelines
- What’s Good in Your Hood
- EPA Environmental Education & Environmental Justice
- Environmental Scorecard
- Earth 911
- MEERA
- The Early Childhood Environmental Education Rating Scale
- Evaluating Your Environmental Education Programs: A Workbook for Practitioners
- Metro Regional Government
- The Oregon Environmental Literacy Plan: Toward a Sustainable Future
